

Tutorial work

- examine the chisel file input file
`$HOME/Sandpit/chisel/maps/three.txt`
- examine the chisel file output
`$HOME/Sandpit/chisel/python/tiny.pen`
- try making a simple change to
`$HOME/Sandpit/chisel/maps/three.txt` and bsp compile the map
- examine many of the files in `$HOME/Sandpit/chisel/maps` what mapping features does the chisel program seem to provide
 - write a list of `chisel` features you would like to utilise in your touchmap tool

Tutorial work

- use the tool `darkradiant` to view the map you have produced
